EDUCATION

University of Florida

Bachelor of Science in Computer Science, GPA: 3.82

Gainesville, Florida

Aug. 2023 – December 2026

EXPERIENCE

Society of PC Building Web Developer

September 2024 – Present

University of Florida

Gainesville, Florida

- Developed a Next.js, React, and TypeScript website with Firebase integration, serving 800+ club members and featuring a custom admin panel for real-time content management.
- Built secure officer dashboard enabling authorized users to update project showcases and event information through Firebase dynamically.
- Implemented Agile methodologies, participating in Scrum with weekly standups and Git version control.
- Collaborated with Gator User Design Club to transform Figma mockups into functional web pages and interactive admin interfaces.

Google Student Developer Club Webmaster

August 2024 – Present

University of Florida

Gainesville, Florida

- Redesigned the club's website into a responsive React application.
- Boosted the Google Lighthouse performance score from 41 to 100 on mobile devices.
- Partnered with club officers to accurately reflect the organization's values and vision.

PROJECTS

Fortnite Performance Tracker | *React, Express.js, Typescript, MongoDB, Figma*

August 2024

- Developed a Fortnite performance tracker with a React and TypeScript frontend, designed using Figma for a polished UI/UX.
- Enabled users to upload .replay files, which are processed by a RESTful Express.js backend, converting binary data into 100k+ lines of JSON.
- Extracted and analyzed data from replay files to generate in-depth performance statistics, enhanced with additional insights from integrated API endpoints.
- Implemented JWT authentication to secure user sessions and API requests, ensuring data privacy and access control.

Coding Question Platform | *React, Docker, Firebase, JavaScript, Tailwind*

April 2024

- Developed a coding question platform using React and Tailwind, providing an interactive and user-friendly interface.
- Implemented user authentication and progress tracking with Firebase, securely storing data in Firestore.
- Deployed a containerized code execution engine using Docker, enabling safe and efficient code grading and execution.

Portfolio Site | *React, Typescript, Framer-Motion, React-Three-Fiber*

October 2022 – Present

- A dynamic React-based web development portfolio animated with Framer-Motion and React-Three-Fiber to showcase my projects and skills.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, SQL (Postgres), NoSQL (MongoDB), Python, C++, HTML/CSS,

Frameworks: React, Next.js Node.js, Tailwind, Express.js, Flask, FastAPI

Tools: Git, Firebase, Docker, Google Cloud Platform, VS Code, Figma

AWARDS/ACHIEVEMENTS

Medihacks Hackathon Winner: Achieved 3rd place out of 53 submissions in a competitive week-long event.

Nurturing Gator Unity and Synergy Hackathon Winner: Secured 3rd place among 25 submissions at a university-sponsored hackathon.

KatyYouthHacks Hackathon Winner: Placed 3rd out of 46 submissions as a solo participant.
